### UNITED ELEVATOR BONDS.

An Almost Unanimous Vote in Favor of the New Issue.

Second mortgage bonds of the St. Louis

United Elevator Co. to the amount of \$450,000

will be issued. This was decided at the

meeting held Wednesday.

The polls opened at 9 o'clock, and voting

began early. Stockholders were given the

choice of two ballots. That "for the bonds"

was almost exclusively used.

Proxies for 1,000 votes were held by Pres-

ident W. T. Anderson and Secretary Cun-

ningham. Nearly all the brokers were

also holders of proxies, and the number

of 5,000 votes and another 2,000. These

brokers voted solidly for the bond issue

and the proxies sent to Messrs. Anderson

and Cunningham were also voted for the

proposition.

The Board of Directors will meet Thurs-

day or Friday to decide upon a plan for

placing the bonds. It is understood that the

stockholders will probably take all the

bonds. In this case, providing no bonds

are taken by the creditors of the

company as an offset to their claims, each

stockholder will be compelled to invest in

bonds to the amount of \$12.50 for each

share of stock held. It is believed that a

considerable number of shares will be taken

by the creditors, and it is also understood

that some of the heaviest of these

offer to take more than their proportion.

It is estimated that the bonds when sold

will bring in the neighborhood of \$350,000

to \$400,000. This money will be used to

take up the Mississippi Valley Trust Co.'s

mortgage of \$200,000 and other outstanding

debts. Any residue will be used for current

expenses up to \$100,000.

President Anderson has, in view a plan,

outlined in the Post-Dispatch recently,

to place the bonds on a first mortgage

on the property. He expects to place a

proposition in a month or two to call in

the bonds just issued, together with the

WASHINGTON, D. C., Oct. 2.—"Nobody

news any better than myself," said Chan-

Corbett last night, "that when I meet

'tismmons in Texas I am going to have

hardest fight of my career. Consequ-

have been taking good care of myself,

reports to the contrary, and my col-

a-to-day is such as to justify the con-

ference reposed in me by my backers. It

as a surprise to myself how little fatig-

stand why such misrepresentations are

made as are daily appearing in the news-

papers to the effect that I am fat and car-

se about my training. I recognize fully

the magnitude of the task before me and

in governing myself accordingly.

"People are talking about the disparity

of the weight between Fitzsimmons and

myself, but when we strip in the ring at

Dallas or elsewhere, I will look like a boy

beside my opponent. He is bigger, older

cheat than I am, but my flesh is more

ly distributed over my body. When

put up our hands it is more than likely

that Fitzsimmons will weigh about 150 lbs

and I will weigh about 140 lbs. I have

"There is going to be a good deal of hard

work necessary to put up both in fight-

ing before the last of this month, but I

have no fears as to the outcome. I shall

my utmost to settle the question of

premincy for once and all.

"There has been some agitation of the

name of John L. Sullivan for referee of the

fight, but I do not see how he could ac-

cept such a position. If he could stand

up as the man who with a blow had

seen some fortune for him all I can

## EGAN TO GO NORTH

He Will Start Either Loughrea Lad or

John Egan will leave for Huron, S. D.

Friday night with his two greyhounds,

Loughrea Lad and Eleanor. The first Wa-

terloo cup ever contested for in this country

will be decided at Huron next Tuesday.

Egan expects to win the \$1,000 event

with one of his dogs. As soon as he arrives

at Huron Egan will give Loughrea Lad

and Eleanor a trial over the course, and the

dog which shows up best will represent

him in the Waterloo cup.

A. McElreath's fawn dog, Chartist, by Glen

Victory to Yale.

NEW YORK, Oct. 2.—Captain Horan was

asked his opinion as to the probable out-

come of Saturday's contest between Cam-

bridge and Yale. He said:

"I am not sanguine of a victory. In fact,

I shall be surprised if we correspondingly

pleased. If we capture a majority of the

large crop, but there are complaints

shot, broad jump, I concede the hammer,

bridge, I think will take the 200-yard quar-

ter mile, half mile and mile races. The

hurdles and the high jump I consider

in doubt. While the 100-yard event seems

safe for Richardson, the 200-yard I will

start, may prove to be a surprise. I will

running quite fast."

Wool Production Decreased.

WASHINGTON, Oct. 2.—According to a

report to the State Department from Uni-

ted States Consul Rignier at Rouen, the

world's production of wool has not in-

creased during the past year, but has actu-

ally diminished. The figures collected by

the permanent Customs-house Commission-

ers show that in 1934 the quantity of wool

available for commerce was 1,000,000 kilo-

grams, or 2,200,000 pounds, as against one

thousand and two millions in 1933. In France

the production was 1,000,000 kilograms, or

2,200,000 pounds, in 1934, as against one

thousand and two millions in 1933. The

quantity of wool does not improve and

due to the high price of wool, sheep are

being raised for that purpose instead of for

wool.
